REPUBLICAN TICKET.

FOR PRESIDENT,
JAMES A. GARFIELD,
OF OHIO.

FOR VICE-PRESIDENT,
CHESTER A. ARTHUR,
OF NEW YORK.

THE REPUBLICAN PROSPECTS.

The success of the Republican ticket this fall depends upon hard fighting and no blundering. There is confidence in the party, and above all things else—harmony and enthusiasm. The prospects this year for the Republican party are certainly brighter than they were four years ago and much more flattering than they have been since General Grant was first nominated in 1868. But these circumstances should not lead the Republicans to commit the folly of being over confident, nor should they tempt them to slacken their zeal for the ticket. Victory will come of nothing but hard work at best. The ticket is a strong one. Garfield's nomination has created a boom all along the line of the party. He is a man of unchallenged honor, of commanding ability, and of great personal strength. But in the face of these facts, let us look at the condition of things thoughtfully and soberly, and then go about the work of electing Garfield and Arthur with the earnestness, unity, and zeal, which will bring success.

The electoral vote of the United States is as follows:

| | | | |
|--------------------|-----|---------------------|----|
| Alabama..... | 9 | Mississippi..... | 8 |
| Arkansas..... | 10 | Minnesota..... | 10 |
| California..... | 12 | Montana..... | 3 |
| Colorado..... | 3 | Nebraska..... | 3 |
| Connecticut..... | 5 | Nevada..... | 3 |
| Delaware..... | 3 | New Hampshire..... | 3 |
| Florida..... | 9 | New Jersey..... | 9 |
| Georgia..... | 12 | New York..... | 35 |
| Idaho..... | 3 | North Carolina..... | 12 |
| Illinois..... | 22 | Ohio..... | 22 |
| Indiana..... | 13 | Oregon..... | 3 |
| Iowa..... | 11 | Rhode Island..... | 4 |
| Kansas..... | 6 | South Carolina..... | 7 |

| Massachusetts..... | 12 | Wisconsin..... | 10 |
| Michigan..... | 11 | | |
| Minnesota..... | 10 | | |
| Total..... | 269 | | |

The States which are called Republican and whose electoral vote will be cast for Garfield, are these:

| | | | |
|--------------------|-----|---------------------|----|
| California..... | 6 | Nevada..... | 3 |
| Colorado..... | 3 | Nebraska..... | 3 |
| Illinois..... | 22 | New Hampshire..... | 3 |

| Michigan..... | 11 | Vermont..... | 3 |
| Minnesota..... | 10 | Virginia..... | 12 |
| Total..... | 139 | West Virginia..... | 5 |
| | | Wisconsin..... | 10 |

The vote of the "Solid South," and which may be regarded as being sure for the Democratic ticket, is as follows:

| | | | |
|--------------------|-----|---------------------|----|
| Alabama..... | 9 | Mississippi..... | 8 |
| Arkansas..... | 10 | Minnesota..... | 10 |
| California..... | 12 | Montana..... | 3 |
| Colorado..... | 3 | Nebraska..... | 3 |
| Connecticut..... | 5 | Nevada..... | 3 |
| Delaware..... | 3 | New Hampshire..... | 3 |
| Florida..... | 9 | New Jersey..... | 9 |
| Georgia..... | 12 | New York..... | 35 |
| Idaho..... | 3 | North Carolina..... | 12 |
| Illinois..... | 22 | Ohio..... | 22 |
| Indiana..... | 13 | Oregon..... | 3 |
| Iowa..... | 11 | Rhode Island..... | 4 |
| Kansas..... | 6 | South Carolina..... | 7 |
| Kentucky..... | 12 | Texas..... | 12 |
| Louisiana..... | 12 | Vermont..... | 3 |
| Maine..... | 4 | Virginia..... | 12 |
| Maryland..... | 10 | West Virginia..... | 5 |
| Massachusetts..... | 12 | Wisconsin..... | 10 |
| Michigan..... | 11 | | |
| Minnesota..... | 10 | | |
| Total..... | 139 | | |

Beside these there are 65 electoral votes which are placed as doubtful. They are Connecticut, 6; New Jersey, 9; Indiana, 13; and New York, 35. It is hardly probable that the Republicans can take all of these out of the list of doubtful States. But by proper management, hard work, and a unity of purpose, New York and Connecticut can be carried for the Republicans. This would give the Republicans 207 votes, and the Democrats 162. But it is claimed that Indiana can be carried for the Republican ticket. This prediction may not be wide of the mark, for in that State the Republicans are united and hopeful, and will make a vigorous campaign.

New York will be the great battle ground for the memorable political struggle of 1880. That State is of vast importance to the Republicans. Let the Republicans fail to carry New York, and though they carry Connecticut, they will have only 169 votes, 15 less than is necessary to elect Garfield. But let them carry Indiana, Connecticut and Oregon, and they will have 190 votes, beside giving New York to the Democrats. The importance of carrying New York can thus be seen. Unless Garfield carries Indiana and Connecticut, he can not afford to lose that State, for that would ensure his defeat.

There is hope in New York. If the vast political power which Roscoe Conkling wields in that State be thrown for the Republicans, it will go for the Garfield; and if there are any honorable means that the Administration can use in giving Conkling support, it should be given to the fullest extent of its power. Above all things let there be a grand battle in that State for Garfield and Arthur. Let every man, of whatever faction of the party he belongs, pledge his name and his manhood, that New York will be carried for the Republicans, and it will be so carried. The Republicans are united there. The ten thousand young scrappers have become ten thousand enthusiastic Garfield men. Every independent Republican paper in the State, including the Harpers' Weekly, is applauding the nomination of Garfield. This is propitious, and it gives the Republicans the cheerful hope that the great State of New York, which has been so long under the ban of Tilden, Tweed,

and Tammany, will honor itself by casting its electoral vote for Garfield and Arthur.

CENSUS TAKING.

The census of the United States, the taking of which was begun on the first of June, is nearly completed. While nothing can be ascertained yet about what the census of the country will be, returns have been received from a number of the cities which show that in many cases the estimated population of cities has been entirely too great. Chicago will fall short of the estimated population by 75,000 or 100,000, St. Louis, which has been pretending that it is "bigger" than Chicago, will have about 100,000 less than that city, and instead of having above 500,000 as was predicted, the population under the new census will not go above 375,000. Sufficient returns have been gathered from the Chicago census takers to warrant in placing the population of that city at about 450,000 or not more than 475,000.

The census returns will show that there are not many cities East of the Mississippi that have very largely increased in population since 1870. Many will be found to have decreased, while the majority have grown but little since the ninth census was taken. There is great disappointment in cities ranging from 6,000 to 10,000 or 12,000 inhabitants. A city of 6,000 or 7,000 has boasted all along that it had 9,000 or 10,000, and the ones having about 10,000 have claimed from 12,000 to 15,000. The law under which the tenth census is being taken is very strict, and enumerators are firmly held to its provisions, and these facts prevent them from duplicating names or using imaginary ones in order to out-do a neighboring city. This careful following of the law by the enumerators has created a bitter howl in the small cities of Illinois and of other States. Their populations when fairly counted fall thousands below the figures they have boasted of, and hence there charges of carelessness or fraud.

The census of Wisconsin, taken by the State authorities in 1875, was badly taken on the whole. Anxious to swell the population as much as possible, it has been charged that names were duplicated in some cities, and hence a correct enumeration was not obtained in all parts of the State. We understand that facts are being arrived at under the law governing the present census, and that these facts are proving very stubborn things. Whatever may be the result, it will be some satisfaction to know that the population given is as near correct as proper diligence and ordinary care will permit.

Why do not some of the Democratic papers level their mud batteries at General Arthur? If he has been a machine politician and used the New York Custom House for corrupt purposes, they should show him up. But Arthur, like Garfield, is beyond the touch of their mud batteries or their darts of malice.

The Republicans of Janesville will ratify the nomination of Garfield and Arthur to-night at Lyppia's hall. This will be done in a manner befitting the excellence of the Chicago nominations, and the enthusiasm of the Republicans of the city.

Should the Cincinnati Convention fail to nominate Tilden, look out for the mortgage he holds on the party. He'll wreck the whole party as completely and quickly as he would a railway, and drive it into bankruptcy.

Mr. Tilden can depend upon one thing—that the Republican party will cordially support him for nomination by the Democratic Convention. This is more than the Democrats are willing to do.

The Democrats can't get their mud to stick on Garfield. This is one of the many annoyances they are already suffering in this campaign.

When Mr. Seymour thinks of 1868, he declines. He was used as a cat's paw then, and the Democrats want to use him in like manner in 1880.

When Seymour says that younger and newer men than he should be nominated, Tilden claims the reference.

It is pretty rough when the Democrats will not give Tilden a chance to even decline.

Chief Justice Ryan, of the Supreme Court, is able to lecture to law classes.

Tilden is as healthy as he is sly, and as sly as he is cunning and tricky.

BURLINGTON, June 18.—Gilbert, youngest son of E. S. Sawyer, and nephew of Philetus Sawyer, accidentally shot himself dead while hunting this afternoon. He attended school at Milwaukee and was home on a vacation.

The Narragansett Disaster.

New York Times, June 17.

It was erroneously stated in the Times of yesterday that 389 passengers are known to have been saved from the wreck of the Narragansett. So far as can be gathered from reports made up to date, there have been only 238 passengers saved. If the estimates of the Company's officers—which place the number of passengers at 389—be correct, the number of lost does not exceed fourteen. If the much higher estimates of observers who were on board the ill-fated steamer represent anything like the truth, the number of lost cannot be less than fifty, and may greatly exceed that number. While the real magnitude of the calamity may never be accurately ascertained, it ought to be possible, before long, to judge whether the number of passengers on board the Narragansett was within the minimum claimed by the Company or approached the maximum claimed by outsiders.

STILL DECLINES.

SPECIAL TO THE GAZETTE.
CINCINNATI, June 19.—The Enquirer publishes a dispatch to-day from Seymour saying he will not be a candidate under any circumstance. He hopes his name will not be presented to the Convention. A letter will be read from Tilden at the meeting of the New York delegation to-night withdrawing from the canvass on account of infirm health, and recommends his friends to support Payne. With Seymour and Tilden out of the fight, it will be between Payne, Hendricks, Bayard, Thurman and Hancock.

THE PAYNE BOOM.

Arrival of the New York Delegation in Cincinnati.—The Payne Boom.—Political Rumors.
CINCINNATI, June 18.—There is good reason to believe to-night that Tilden's name will not be presented to the Democratic Convention, which assembles here Tuesday. The New York delegation arrived in large numbers to-day, and even before that his removal was heralded by its most prominent men and Tilden's most prominent managers. Among these are Smith, Weed, Mayor Wickham, E. K. Apper, and a host of other names familiar to our country. The New York delegation came to-night with flying colors. John Kelly also arrived and took up his headquarters

at the Burnet House. His delegation will be here to-morrow. In the midst of this it has leaked out that Tilden's managers do not intend to present his name to the Convention.

What the cause of this is, your correspondent was unable to ascertain, except the belief on their part that he cannot win. If the rumor that his name will not be presented is true, and there seems little doubt of that, it is probable, indeed almost certain, that his strength will go to Payne. Mayor Wickham, Smith, Weed, and a half dozen others of Tilden's managers, state that Tilden's name will not be presented, they all speak of Payne in case Tilden is withdrawn. Among Tilden men nobody talks of any one except Payne. There is evidently a Payne boom gaining strength every moment. Yesterday it was Field. The policy of giving Ohio to the Republicans, which was advocated a week ago, seems to have been abandoned for a more pugnacious one, and the idea now seems to be to put up Payne and make a hard fight for Ohio in both October and November.

The New York delegation, which is not all here yet, will not hold its meeting to-morrow night, when a debate course of action will be determined upon. But from good authority your correspondent learns that Tilden's name certainly will not be presented, and that the documents are in town authorizing the withdrawal of his name if presented.

The Bayard and Field men still remain hopeful and are by no means discouraged; but all indications point to-night to Payne, and his chances have certainly improved very much within the past twenty-four hours.

There are points in Payne's financial record very similar to those which killed Thurman with the Eastern Democrats, and should those points be brought forward, which they probably will, within the next twenty-four hours, it might very seriously affect his prospects, in fact, might defeat him.

John Kelly was interviewed to-night, and expressed his gratification over the prospects of Tilden's withdrawal. He would gladly unite with the party on Payne, and almost anyone else.

A correspondent met a gentleman of the New York delegation who arrived to-night, coming part of the way on the train which carried Horatio Seymour, says that Seymour was surrounded by members of the delegation all the way to his stopping place and pressed earnestly to become a candidate and allow the use of his name, but he positively refused, saying that under no circumstances would he allow his name to be used, that his years and health would not permit it; that the burden of the campaign must and should rest upon some younger man than he.

There is a silly rumor afloat here that the Butler delegation from Massachusetts will attempt to gain seats in the convention, but this is denied by people who claim to know the real facts.

Mayor Wickham is quoted this morning as saying that Tilden will not withdraw from the race, but this afternoon although he would not commit himself, refused to state that Tilden will be a candidate.

The Hendricks men will stand out strong for him, and they will never, never, never, give up for any other man for first place for any Indiana man for second place by way of consolation.

The Bishop boys are pushing their father's boom through lustily, but, of course, if Payne should be nominated for President, the Bishop need hope for nothing this time.

The Tilden-Payne party on the National committee seem likely to win in the fight which exists between them and the local committee in regard to the distribution of tickets. They held a meeting to-day and decided to give each delegate five tickets, leaving his own and to the Cincinnati committee 500, beside 400 or 600 for ladies' seats. Thus there is the distribution of nearly 4,000 tickets into the hands of the Executive Committee, and perhaps 1,000 all told, including those to ladies, into the hands of the local committee.

A FIRST BALLOT.

New York, June 18.—The Herald gives the following as the apparent first ballot at Cincinnati: Whole number of delegates 738, necessary to a choice 492; Tilden 181, Bayard 130, Seymour 85, Hancock 66, Thurman 65, Field 60, Hendricks 39, Morrison 38, Randolph 19, English 3, scattering 12, doubtful 19.

THE FLOOD.

SAUK CITY, June 18.—The river is about eight feet above low water mark, the highest ever known here before. There has been but little damage so far. Last night the flood moved one of the bridge piers about three feet, and citizens are working night and day to save the structure. This morning the water rose about two inches, but since then it has been at a standstill. Some buildings have over two feet of water in them, and stables and barns are receiving a thorough cleansing.

AT THEIR OLD TRICKS.

WASHINGTON, June 18.—A dispatch from Montgomery says: Alabama has fired the first shot gun in the Presidential campaign. Saturday night the Republicans at Montgomery held a ratification meeting at the public square, which was broken up by Democrats discharging firearms and assailing Republican speakers with rotten eggs.

GARFIELD'S MOVEMENTS.

WASHINGTON, June 18.—General Garfield will probably leave to-morrow for his country home at Mentor, Ohio, where he will doubtless spend the entire summer. Secretary Schurz and General Garfield took a long ride this afternoon. Conkling called upon General Garfield yesterday.

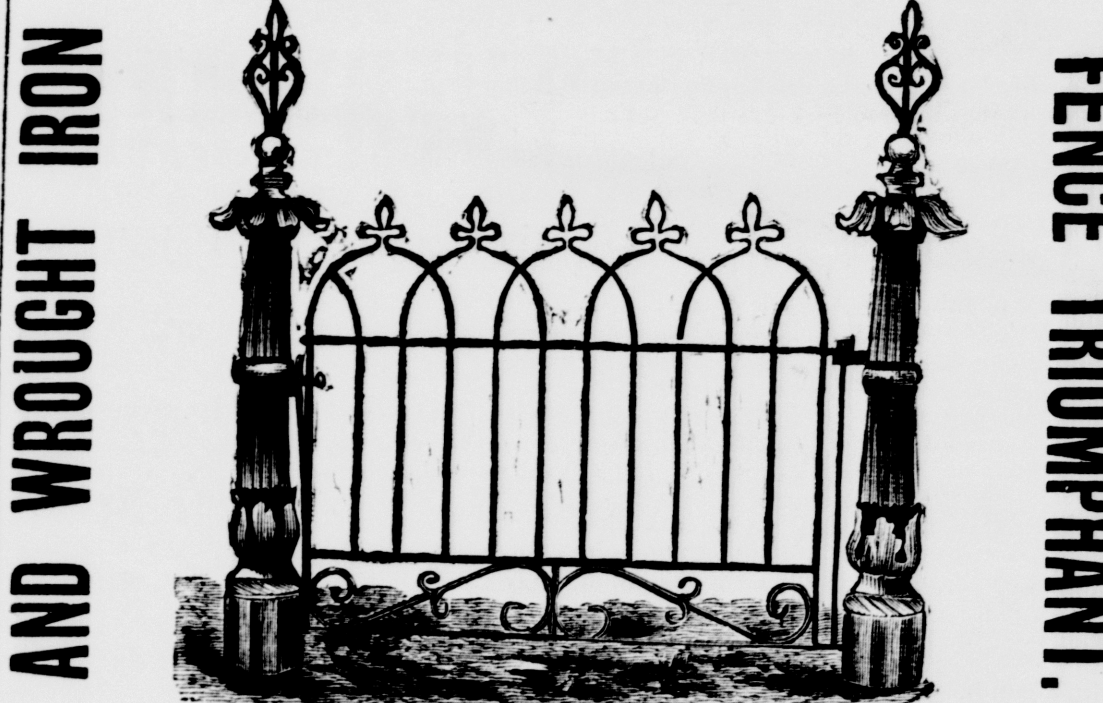

MUST HANG.

INDIANAPOLIS, June 18.—In the case of Moynihan, the Logansport murderer under sentence of death, and resented by the Governor until Friday next the Supreme Court affirms the judgment and sentence of the lower Court. It was understood at the time the respite was granted to allow the Supreme Court to review the case that the Governor would not further interfere.

ANOTHER COUNTY HEARD FROM

AND THE RETURN OF EVERY MALE

Gives us a better majority as our sales every month show. And yet all are not happy. We are. Why shouldn't we be? Trade increasing every month; receiving goods every day and selling them too. Why? Because we sell them cheap.

When a customer comes in and looks at our goods, and after going around town and examining goods and prices in all the other clothing stores, comes back and buys of us, we think that is good evidence that we are selling a little better goods and at a little lower prices than anybody else. Give us a chance and we will prove what we say. Always glad to show goods.

THE GAZETTE.

SAUNDERS, JUNE 19, 1889.

FARM NOTES.

The peach crop in Allegan county, Michigan, is reported as very promising.

Nevada papers report that late frosts in some parts of Nevada have killed the fruit in many parts of the State including plums and apples.

The mowing machine ought not to be gauged to cut low. If grass is cut too close the succeeding crop is much injured, and especially if the summer is a dry one.

In Gibson county, Indiana, 1,200 acres, it is said, have been planted to water-melons, and it is estimated that over 1,000 car loads of the fruit will be shipped from that section.

According to the average of thirteen analyses made by Prof. E. W. Smith, of Germany, green grass contains 85 per cent of nutriment. If cut when in bloom, it will contain but 62 per cent, whereas if not cut until the seeds are fully formed or ripe it will contain only 31 per cent of nutriment.

Robert McKinstry, of Hudson, New York, is believed to own the largest fruit-orchard in the United States. It contains 24,000 apple trees, 1,700 pear, 4,000 cherry, 5,000 peach, 200 plum, 200 crab apple, 15,000 grape vines, 6,000 currant bushes and 500 chestnut trees. As many as 30,000 barrels of apples alone have been produced in a season in this gigantic orchard.

Prof. Kozdie, of the Agricultural College of Michigan, and expert chemist, recently said that a paint or wash made of skim milk, thoroughly skimmed, and water, and proved it by experiment. He said this paint, or whitewash, is durable, very cheap, impervious to water, of agreeable color and as it will prevent wood from taking fire, he urged its use, particularly on roofs, out buildings, barns, etc.

The Charleston News says that in South Carolina farming is doing very well. Extensively, more industriously, and more intelligently than ever before known by the oldest inhabitants. Men are working with all their might, and with cheerfulness, thereby raising agriculture from the previous status of an isolated and piddling calling to that of a live hopeful business, in which an enlightened and enterprising class are given to surroundings and their bearings.

The last Iowa legislature passed a law providing that a layman wire shall be one whose posts are not to be more than two rods apart, with two ways between, or one rod without stays; top wire not to be more than thirty-four inches nor less than forty-eight inches from the ground; wires to be securely fastened to the posts, to be three wires barbed, or four wires, two of which shall be barbed, with not less than 35 barbs, with four coats each to the rod the act goes into effect July 1st next.

High prices are producing an immense increase in our imports. The United States furnishes at present most excellent market for products of foreign manufacture, and the languishing industries of Europe are not slow to avail themselves of the opportunity offered. If we are not careful we will find ourselves in the near future burdened with another foreign debt, which we will be compelled to pay as we did the one incurred during the years of inflation, by selling our produce at ruinously low figures.

The Maine Farmer says that the husbandmen of that State who raised beets and sold them to the Portland Beet Sugar Company received at the rate of \$100 to \$150 per acre. The company offers \$500 for 2,240 pounds of unwashed beets, from earth and stones. For a very scarce of beets sold the company offer to return to the farmer a certain amount of beet pulp containing ten tons, at the rate of \$1.50 to \$1.80 per ton, delivered to him at the nearest railroad station. The crop was extensively planted this spring in that State, and the prospects are that the supply will be greater than the demand.

KEEPING ONE COW.
Many More Families Should Keep One—How It Pays—An Example.

From the American Agriculturist.

A business man in New York, being troubled to get good milk for young children in his family, took our advice to keep a cow in the winter, and so to "speak" into the dairy business on his own account. The result was instructive to scores of thousands of families in cities and villages. He had no pasture grounds, the only convenience being a roomy stall in a carriage barn, with opportunity for the cow to sun herself and take limited exercise in a small area, say 15 by 20 feet, at the side of the barn, and this was seldom used. The stall is kept clean and neat, with fresh straw litter, and the cow has remained in excellent health and vigor. Chewing her cud and manufacturing milk seem to give all the exercise she needs. Her food is cut in a small hay cutter and mixed with corn meal, bran and shorts, with some uncooked potato parings, cabbage leaves, leftover rice, oatmeal, etc., from the kitchen.

A laborer is paid one dollar a week to milk and feed and brush and night and morning, and take care of the stable, and he is allowed an excess of milk to give all over twelve quarts a day. He prepares a mess for her noon feed, which is given by one of the boys at school when he comes home to lunch. The cow is a grade, probably three fourths Jersey and one-fourth common blood. Her milk is rich, yields abundant cream, and as the owner's family says, "is worth fully double any milk we ever got from the best milk dealers." One neighboring family gladly takes six quarts a day at 7 cents a quart, and would willingly pay much more if it were asked, and other families would be happy to get some of it at 10 cents a quart, but six quarts are kept for home use, and it is valued far above 7 cents a quart, and worth more than that amount in saving of butter in cooking, making cake, puddings, etc. So it is a very low estimate to call the whole milk worth 7 cents a quart. No one can give our business friend or his family of their good home produced milk, if it is 10 or 12 cents a quart. An accurate account is kept of the feed, the man in charge orders at the feed store what he needs for the cow, and it is all down on a pass-book. Here are the figures for 100 days past:

850 pounds bale hay, at \$1.25 per ton..... \$ 9.35
1,000 pounds corn meal, at \$1.35 per 100..... 13.50
200 pounds bran, at \$1.35 per 100..... 2.70
200 pounds feed, at \$1.25 per 100..... 2.50
100 pounds, at \$1.25 per 100..... 1.25
200 pounds of feeding straw, at \$1.00 per 100..... 2.00
Paid man for care and milking, \$1 per week..... 14.39
Total expenses for 100 days..... \$37.45

Money profit in 100 days..... \$36.55
Or, to put it another way, the 600 quarts sold brought in \$42.00, and the 600 quarts used at home cost \$45.45. The cow cost, say \$65. The entire care which was not paid in the surplus of milk above twelve quarts per day, is charged in the expenses above. The measure produced, if sold, would more than meet the interest on the cost of the cow, and say depreciation in value by use.

Allow the above average to be kept up only 200 days in the year, and at the end of that time suppose the cow is sold for half price (\$2.50) and a fresh one substituted, there would still be a gain of \$40.00 for 200 days, or for a year a profit of \$74.10.

With good feed the \$65 cow will keep up a full supply of milk at least twenty-six weeks, and then be worth \$10.00 continued milking and breeding. Sell her then and buy another fresh cow for \$85—a loss of \$20 a year. The above liberal allowance of \$47.45 for feed and care 100 days amounts to \$173.19 a year. Adding the loss of \$50 for purchasing two fresh cows makes the total annual expense \$223.19. This would make the supply of milk, twelve quarts a day (4200 quarts), cost about 5 cents per quart, or not quite 51 cents for ten quarts. This is not an exaggerated estimate for a \$65 cow, renewed every twenty-six weeks. The feed and care may be very much less than \$17.45 per 100 days, by saving all waste food suitable for a cow, and by securing pasturage seven or eight months, and especially when a cow can be cared for by members of the family thus saving \$32 a year. Taking the country as a whole, probably \$50 will ordinarily buy a cow that will, on fair feed, average ten or twelve quarts per day for the first six months after calving.

FASHION'S FANCY.
Some of the Freaks it Plays for the Season of 1889.

Archery emblems make pretty hat and collar decorations.

Diamond epaulettes are replaced by those of flowers in Paris.

There is a tendency to revive the simple dresses of former days.

Yellow, red, heliotrope, and ecrú, grow more and more fashionable.

Hooks and eyes in plain and colored steel have been introduced as substitutes for buttons.

Annual dresses are made of white satin with round dots, and trimmed with tulle and orange blossoms.

Some of the new overskirts are slashed at the seams, and have the end of each gore rounded or pointed.

The most fashionable long gloves for fall dress are of tulle, white, or in very pale shades of color.

Boy-and-arrow combs and ornaments for the hat and hair show the tendency of popular fancy for archery.

Dresses of sun color, covered with beads that simulate precious stones, are worn by Paris grande dames.

Pretty dresses for blondes are made of white net and valuing, with plications of violet and red and gold trimmings.

Artificial hair chignons, made of silk or of curled quills, look natural and are worn on many pretty hats and bouquets.

Beaute is the ordinary fabric for the fancy handkerchief which now prevails, and the finest French dress is employed in ornamentation.

The vest is not by any means in disfavor, but is often worn as a separate garment, to be laid aside at will, and to change at pleasure, from simple paper to brocade, or embroidered or painted satin.

Many of the new costumes have the front of the skirts in great, loose puffs, carried several times to the top, to be some of these puffs are so large that three of them form the entire front of the dress. The bottom is finished with a narrow ruffle on the edge of the lower puff. The lady that can wear this dress with grace must be tall and slender, and more than usually graceful.

Fringes are scarcely as thick as kinds employed in the season past, but they are equally as deep, and are composed of silk, sun chenille and beas. Some patterns are made in clusters, with plaques intervening, and the groups showing flat tongues of silk with mixed beads and fringe. Frequently such showy fringes have from five to seven different colors in the clusters, thus making an outline like pickets.

Small bonnets and large hats are the rule, though there are of course a large class of intermediates. One of their striking novelties consists of a circular, fringed yellow open work and satin strap, the strap forming loops, through which is run a ruby satin ribbon. The bonnet is lined with ruby satin and trimmed with loops of ruby satin and old g. H. ribbon, red poppies and yellow wheat. This is the genuine "sunset" bonnet.

RATIFICATION MEETING.

The Republicans of this city will ratify the nomination of Garfield and Arthur at Lippin's hall, on Saturday evening, June 19th. Speeches will be made by Hon. J. B. Cassaday and others, and the Bower City Band will furnish the music.

BRIEFLETS.

—Rally to the ratification.
—The dealers are stocking up on fire works.
—R. T. Pember and wife returned from Iowa this afternoon.
—Rev. and Mrs. J. L. Jones returned from Milwaukee last evening.
—David Watt's father died at his home in Hampton, Iowa, on the 8th inst.
—Attorney John Winans left, to-day, for Cincinnati, to attend the Convention.
—Miss Helen Blinn has concluded not to leave for the East until Monday next.
—The Bower City Band will furnish the music at the ratification meeting to-night.
—The funeral of Deacon Randall was held this morning, Rev. Mr. Chapell officiating.
—Anyone having a second-hand high desk to sell should look up the card in another column, inquiring for one.
—Rev. J. W. Sanderson left the city to-day, but will return again Monday. Mrs. Sanderson is still visiting friends here.
—Dr. G. G. Chittenden returned last evening from Milwaukee and reports a pleasant time at the meeting of the medical association.
—The ladies as well as the gentlemen are invited to be present at the ratification meeting this evening to Lippin's hall, and they are not only invited, but expected.
—Those desiring iron fencing for their yards or for cemetery lots should see the samples and learn the prices of Matthew Paterson, whose card appears in another column.
—Orson Cox, of Fulton, while drunk yesterday, made an indecent spectacle of himself, and was run into jail. This morning he pleaded guilty before Justice Nolan and was fined \$5 and costs.
—Two more cows were run in last night. Both belonged to men able to own them, and able to hire pasture for them. The excuse for having them at large was that they had broken out of pasture.
—Cow-owners are for the most part showing their willingness to comply with the law, and those few who are not willing are fast learning that as a matter of policy it is best to keep their stock off the street.
—There should be a full turnout at Lippin's hall to-night at the Republican ratification meeting. There will be a good time for all. Go early, get a seat, stay clear through, and profit by what you shall hear.
—The enthusiasm shown in establishing small systems of water-works at the cemetery and at the Court House park is the first bud of promise that a full blown system throughout the city will come in time.
—The Chicago mail again missed connection this morning. It is now proposed to get up a stock company to establish a stage route so that the mails may be had more regularly. Four times in a week are just four too many.
—The delegates to the Temple of Honor meeting at La Crosse, A. D. Wickham, S. C. Barnham, Jr., E. L. Dimock, and Moses Pritchard, returned last evening. J. D. King, who was also a delegate went right through to Chicago.
—As will be seen by our telegraphic news, the Grand Temple of Honor, at its meeting in La Crosse, has given some of its official honors to Janesville. It has chosen S. C. Barnham, Jr., Grand Worthy Recorder, and E. L. Dimock Grand Worthy Treasurer.
—O. M. Nelson has taken rooms in Tallman's block opposite the First National bank, and opened up an establishment for repairing and plating all kinds of jewelry. It is an enterprise worthy of a liberal support, and Mr. Nelson's work shows him to be well skilled.
—George Stockton has a dry goods trade which is steadily growing, and his store seems as lively as a beehive. His stock is excellent, and he handles it in a happy manner, so that he holds his own patrons, and constantly secures new ones. Let the good work go on.
—James Fain, the veteran, was this morning sentenced to thirty days in jail for being drunk. Fain lately drew his arrears of pension and has been spending the money pretty freely, but has about \$800 left, and a move was made to-day to have a guardian appointed to look after him, and see to it that the money was not squandered.
—The postoffice authorities say that the recent washouts are the cause of the delay in mails here, and that Janesville is better off now than many cities in this State. The Chicago mail takes a circuitous course to get here, so as to reach Janesville in the morning, and now that some of the roads north of here are under water, great delay is caused. The Milwaukee postoffice is so crowded with mail matter that it is almost in a state of chaos. The promise is made that everything will be all right within a week, though. In the meantime they say it doesn't pay to change the schedules. Hence, as to-day, it happens that a letter mailed in Chicago yesterday afternoon, would come up by Milwaukee, is delayed, and does not reach here until this afternoon while one mailed this morning reaches here at the same time. The postoffice folk say that the weather and the clouds should be blamed, not the railway mail service.

THE WEATHER.

REPORTED BY PATENT AND STANDARD DRUGGISTS.

The thermometer at 6 o'clock last evening stood at 81 degrees above; at 1 o'clock a. m. to-day at 76 degrees above; at

7 o'clock a. m. at 80 degrees above, and at 1 o'clock p. m. at 84 degrees above. Partly cloudy.
The indications to-day are, for the upper lake region, and upper Mississippi valley, partly cloudy weather, possibly occasional light rain, light winds mostly southeasterly, stationary or higher temperature, followed by falling barometer.

SILENCING ISLANDER.

Sundry rumors have reached this city concerning Charles E. Parker, who now lives in Niobrara, Neb. These rumors are to the effect that he has been out of employment, that he has been discouraged, been drinking, and tried to commit suicide. When the news of these reports reached Niobrara, the following document was drawn up and sent to this city, which is self explanatory:

NIOBRARA, Neb., June 8, 1890.—We the undersigned attorneys of the Bar of Niobrara, Knox county, Nebraska, desire to say that we are well acquainted with Charles Parker, that he is at present and has been for more than one year past Deputy County Clerk for said county, that he has been very steady, attentive and courteous in his business, and know him to be a gentleman in every sense of the word, and take great pleasure in making this statement:

R. E. Sprague, County Judge.
H. Westermann, County Treasurer.
Fred J. Fox, Chancellor.
J. W. Wood, Coroner.
Davis Armstrong, Sheriff.
J. W. Perkins.
James A. Cooley.
Charles Cooley.
John R. Markley.

TEMPERANCE MEETING.

Prof. George E. Foster, late of the University of New Brunswick, will speak under the auspices of the W. C. T. U. in the Congregational church to-morrow evening on temperance. Prof. Foster comes warmly recommended by Miss Willard, John B. Gough, Neal Dow, and many other prominent temperance workers. Invitations have been extended to all the churches, and all will be most cordially welcome.

ATTEMPTED SUICIDE.

A dispatch from Battle Creek, Michigan, states that Prof. A. C. Spicer, an Adventist clergyman and teacher at the college there, attempted suicide yesterday while temporarily insane from religious excitement. He first tried to drown himself, and when pulled out of the river

he broke away and threw himself in front of an approaching train, but was again rescued and is now kept under guard. Mr. Spicer was about twenty-eight years old, principal of the Janesville High School, and at one time was principal of the Milton Academy.

NEW PUBLICATIONS.

THE FRANKLIN SQUARE LIBRARY: Harper & Brothers, New York. For sale by Janesville, Chicago, and by the Janesville dealers. Price 15 cents.

This series maintains its standard of literary excellence and has in its late numbers contributed some valuable reading matter.

THE NINETEENTH CENTURY is a compact history of the important transactions of the different European governments both political and domestic.

RUSSIA, BEFORE AND AFTER THE WAR, gives us valuable information of that vast and comparatively unknown country.

A WARDMAN WOMAN is an English society novel, made pleasant and readable in spite of a hackneyed plot and commonplace incident.

FROM THE RETURN OF THE PRINCES, we have much of Oriental interior life and domestic customs; and with the beautiful young Princess we are in turn bewildered, fascinated, and disappointed.

THE SYLVIAN QUEEN gives us a cheerful of English rural life.

TOM SINGLETON; DRAGON AND DRAGON, succeeds in winning interest and sympathy from his first adventure to his last.

DEMOCRACY—An American novel. Leisure Hour Series. Henry Holt & Co., New York. For sale by Janesville, Chicago, and by the Janesville dealers. Price one dollar.

This book leaves the reader in a state of distressing doubt. Did the unknown author seek to startle the world with a masterpiece of satire? It is a wretched caricature instead. Or does he expect us to accept it as an "Old true tale?" The vulgar picture of Washington society, of the President and his wife, and of prominent politicians is not only an insult to every President from Washington to Hayes, but to every man and woman who has helped make the history of our country. When Americans endorse such a perverted and distorted description of American social life, we need not wonder that foreigners fail to understand us and our institutions.

The book is doubtless written by some department clerk, jealous of his chief, and who, like the Texas door-keeper of a late Congress, fondly imagines himself to be "a bigger man than old Grant."

THE CASE STATED BY P. T. BARNUM.

In the exhibition business I recognize no competitors. All public exhibitors in America and Europe acknowledge and prize themselves that never before within the knowledge of man was there a traveling exhibition costing so much money, so extensive and varied, so interesting, so instructive, so marvelous, so clean, so perfect in all its appointments, as my property named "Greatest Show on Earth." No other exhibition pretends to have a Museum, and yet my museum department with its living giants, dwarfs, Zulus, mysterious lady, and its thousands of curiosities and its mechanical, musical, magical wonders would alone make an exhibition more instructive and marvelous than any other exhibition which ever traveled. My combined exhibitions are suited to all classes and ages, and I honestly believe them to be better worth one dollar to witness than any dramatic, musical or other entertainment on exhibition in existence. It is by far the best show that I ever owned. I never advertise a line or exhibit a picture which does not represent exactly what I show to the public. My numerous tents are absolutely water proof, so that I guarantee my visitors perfect protection from the rain while under my tents.

Thus far this season on every night except one, and every Saturday afternoon, I have been obliged to close my doors and turn many away from want of room. I have, however, just enlarged the great circus tent, increasing its seating capacity one quarter, and expect, hereafter to be able to accommodate all who come; but after all, the surest way to avoid such disappointments is, so far as possible, to attend the day exhibitions, which are precisely the same as those of the evenings. The public's obedient servant.

P. T. BARNUM.

Unquestionable. The "Herald," Detroit, Mich., says of Warner's Safe Kidney and Liver Cure: "The kidney and liver are the most important organs in the human body, and if they are not properly cared for, they will cause a host of diseases. Warner's Safe Kidney and Liver Cure is a truly wonderful medicine, and it is not worth the questioning. Boys' side testimonials from well known citizens in public and private life are evidence strong enough to convince the most stubborn doubter."
